

9/6/13 Assignment

Step 1: Create a **claim** (otherwise known as a thesis statement).

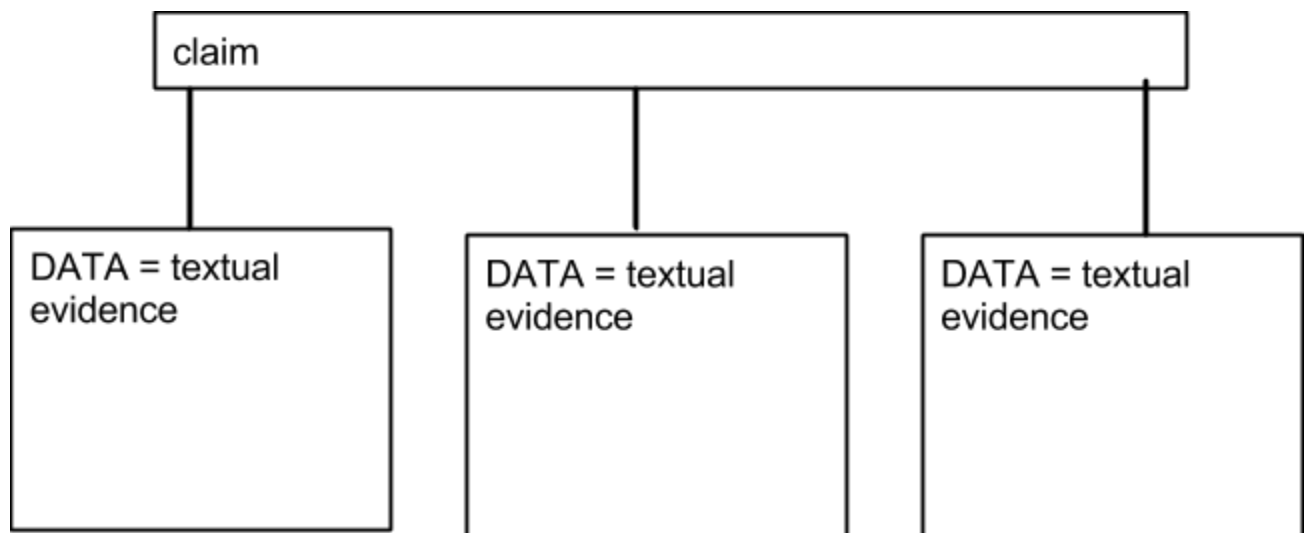

Step 2: Gather 3 pieces of **data** (*textual evidence*) to support your claim (Use the organizer below).

**Data** (textual evidence) consists of

- direct quotations (at least ONE piece of data **must** be a quote)
- summary
- paraphrase

Step 3: Give a **warrant** (explanation) by elaborating on each piece of **data** (How does it support your claim?)

**NOTE:** This does not need to be a cohesive paragraph at this point! We are working on matching evidence to claim, supporting your reasoning, and the grammatical rules involved in integrating quotes.

Claim:

First piece of **data** with **warrant** (textual evidence with elaboration):

Second piece of **data** with **warrant** (textual evidence with elaboration):

Third piece of **data** with **warrant** (textual evidence with elaboration):
